Federation of Osteopathic  
Professionals**

## **REGISTRATION DEADLINE MARCH 9<sup>th</sup>**

### Visceral Manipulation of Abdominal and Low Back Pain

**Summary: Approved by CMTO for 6.0 units of CEU.**

Visceral Manipulation presents a model that may be used to locate and solve problems throughout the body. It encourages your own natural mechanisms to improve the functioning of your organs, dissipate the negative effects of stress, enhance mobility of the musculoskeletal system through the connective tissue attachments, and influence general metabolism and wellness.

In this course the osteopath will learn the concepts of mobility and motility of the abdominal viscera and their clinical correlations to organ and musculoskeletal well-being. The organs studied in this module include: the liver, gall bladder, esophagus stomach, and the small and large intestines and their respective fixations.

The course will be conducted March 31 - April 1, 2012. March 31<sup>st</sup> 8:00 am – 5:00 pm and April 1<sup>st</sup> 9:00 am – 1:00 pm.
